ABOUT ME

I have always motivated myself to learn new things education. My biggest motivation is the desire to learn new things. I started improve myself firstly youtube i make electronic music and shared. My education life time always research new things and I loved finding solutions. I developed with HTML and CSS at the beginner level before, then I focused on mobile application and i started university then i bought mac book then i install x code and develop simple apps.in example i developed 'todo' and 'calculator' apps. i improve myself coding with swift language as i show down below, and also i am interest SwiftUI language and improve my coding skills.
Best regards,I hope we are working together.
